SWARM

Derek Taylor, fugitive hacker and contractor to the National Security Agency is living under the name of a murdered best friend, hiding from powers who still want him dead. Taylor's ties to a terrorist hacker group called SNO lead to an investigation by Lt. Jennifer Scott, the daughter of a Joint Chief—a woman determined to go to any lengths to prove her worth.

But when a Chinese artificial intelligence (AI) internet virus threatens national security, SLVIA warns Taylor the fifth seal of end time prophecy has broken. This unexpected assault soon forces an autocratic US President to deploy a defective AI weapon. Now, Taylor and Lt. Scott must join forces across three continents to stop the evil AI virus from crippling America or destroying SLVIA before an apocalypse swarms over Jerusalem.

Combining conspiracies, political and church corruption, cyber espionage, and advanced weapons, Swarm reveals what happens when AI singularity and prophecy collide to shake the world at its very foundations.

- A pulse-pounding, grab-you-by-the-throat thrill ride.

Following a brutal massacre, the Ethiopian Ark of the Covenant – a revered religious artifact – sells on the international black market. Soon afterward, the death of an aging Saudi King spurs a flawed Saudi-Israeli peace deal, promoted by a polarizing former US president under criminal indictment and seeking political asylum.

Elsewhere, an assassin from the fanatical Solar Temple murder cult hunts down NSA fugitive Derek Taylor while he searches for an escaped US Defense artificial intelligence called the SLVIA. Breadcrumbs direct Taylor from Portugal to the Vatican, and then Israel to discover a mysterious copper scroll with an incredible ancient secret.

As a Temple Mount ceremony transforms into a blasphemous political theater - sparking fears of a modern-day Anti-Christ - Taylor learns the woman he loves, who once betrayed him, has fallen into the hands of the Russian oligarch who may have killed her father.

Now, Taylor faces an impossible choice; one that could change the world order, and likely cost him his life.

A FORGOTTEN SACRED PILGRIMAGE.

A CURSED FAMILY LEGACY

The Curse of Cortés

In 1672, Henry Morgan took 36 ships and 2,000 men to sack Panama City for a \$1 billion plunder and 600 slaves. Morgan alone survived as a haunted man who hid away in drunken debauchery, and burned his log books to keep the world from learning the terrifying truth. True story.

With a Mayan prophecy psychopath in pursuit, Sophia will need the help of lost relatives to uncover a sacred pilgrimage to the origins of the Mayan creation myth. Time is running out to decode the macabre enigma and escape the deadly necropolis or they too will vanish without a trace – and an apocalypse will unleash on live television.
